## Career Intention

---

Aspiring Computer Science Engineering student seeking to leverage my skills in programming, problem-solving, and innovative thinking to contribute to a dynamic and challenging environment. Passionate about developing efficient and scalable software solutions

## Education

---

**B tech - Computer Science and Business Systems 5th semester,**

2023 – 2027

*KIT - Klaganarkarunanidhi Institute of Technology*

CGPA - 7.78

## Technical Skills

---

JAVA

PYTHON

C/CPP

HTML/CSS/JAVASCRIPT

OOPS CONCEPTS

## Certificates

---

- |   |   |  |
|---|---|--|
| • NPTEL - Problem Solving Through C Programming | • NPTEL - DataStructures Solving Through JAVA | • INFOSYS - Web Development Using HTML and CSS |
| • INFOSYS-Python Foundation                     | • COURSERA-Getting started with Python        | • EF Set English Communication                 |

## Projects

---

### SP CLOTHING - HTML/CSS/JAVASCRIPT

Developed an e-commerce website, SP Clothing, focused on clothing and apparel, featuring an intuitive user interface, responsive design, and seamless user experience. Integrated a dynamic product catalog with advanced search and filtering options, secure payment gateways, and real-time order tracking to ensure smooth transactions and customer satisfaction.

### To-Do list - HTML/CSS/JAVASCRIPT

Developed a responsive To-Do List web application using HTML, CSS, and JavaScript, focusing on intuitive task management and user experience. The application allows users to add, edit, delete, and mark tasks as completed, with dynamic updates to the UI. Implemented features like task filtering and real-time search to enhance usability. Designed a clean and minimal interface with condition-based rendering, ensuring smooth functionality across different devices and screen sizes.
